Preliminary Statement and Verification

Petitioner's Preliminary Statement

Verified pursuant to Md. Rule 2-303 and 2-305

Statement of the Case Petitioner, Caustin Lee McLaughlin, individually and as Managing Director / Debtor-in-Possession of the Pro Se Disability Litigant Empowerment Foundation (PSDLEF), files this Unified Filing Portfolio seeking: (i) declaratory relief recognizing the PSDLEF Perpetual Trust and the Cascade Canal System as legitimate infrastructure and community-benefit undertakings; (ii) injunctive relief preserving escrow and signature authority pending resolution; (iii) interpleader of certain funds currently held or to be held at Citibank, N.A. and The Bank of New York Mellon; and (iv) recognition of the signature cards and escrow instructions contained herein.

Standing and Capacity Petitioner is the Managing Director and Debtor-in-Possession of PSDLEF, a Uniform Directed Trust Act purpose trust, and is authorized to bind PSDLEF, ADR LLC, ADX LLC, the 300-House SPV, the BSBS Microgrid, and the Cascade Canal Authority (proposed). Petitioner is also a claimant in the USEC/Centrus reorganization and is the designated authorized contact for all escrow matters.

Summary of Relief Sought

1. Declare the PSDLEF Perpetual Trust validly formed and the Cascade Canal System a legitimate public-benefit infrastructure project.
2. Order Citibank, N.A. and The Bank of New York Mellon to maintain certain funds in escrow pending final resolution, subject to the Escrow Instructions in Part IV.
3. Recognize the signature cards in Part V as effective authority for account opening and operations.
4. Permit the Onboarding Program in Part VI to proceed.
5. Such other relief as the Court deems just and proper.

Verification Under Penalty of Perjury I, Caustin Lee McLaughlin, being duly sworn, depose and say that I am the Managing Director / Debtor-in-Possession of PSDLEF, that I have read the foregoing Unified Filing Portfolio, and that the facts stated herein are true and correct to the best of my knowledge, information, and belief.

2. Executive Summary

Purpose This Unified Filing Portfolio consolidates (i) the Cascade Canal System technical package, (ii) the PSDLEF portfolio of projects (ADR, ADX, 300-House, BSBS, DYREO, USEC/Centrus, Legal Services), (iii) Citibank and BNY Mellon escrow instructions, (iv) signature cards, and (v) onboarding materials into a single filing-ready document for the Circuit Court for Baltimore City, Maryland.

Key Propositions

1. The Cascade Canal System is a legitimate 27.2 km navigable waterway connecting the Patapsco River / Inner Harbor to the Woodlawn SSA Campus, with an intermediate public node at Gwynns Falls / 1000 N Woodington Road.
2. PSDLEF is a validly formed perpetual purpose trust under the Uniform Directed Trust Act, with a $300 million corpus allocated across legal aid, solar microgrid, and AI grant-pool uses.
3. ADR LLC and ADX LLC are bankruptcy-remote Wyoming subsidiaries of PSDLEF holding a $350 million treasury and a regulated digital-asset exchange, respectively.
4. Escrow should be maintained at Citibank, N.A. and The Bank of New York Mellon under the instructions in Part IV.
5. Signature cards in Part V establish binding authority for accounts, wires, and project disbursements.

Cascade Canal System — Technical Package

3. System Overview and Geometry

Chapter 1 — Cascade Canal System

27.2 km · 35 Locks · 105 m Lift · Woodlawn Terminus

3.1 Design Philosophy and Reach Structure

The Cascade Canal System reconnects the Patapsco River estuary with the SSA Woodlawn campus through 35 locks, 4 major aqueducts, 3 hybrid reservoirs, and 27.2 km of navigable waterway climbing 105 m. Six operational reaches:

Reach	Description	Length (km)	Lift (m)
R1	Patapsco Terminal to Inner Harbor	3.8	2.5
R2	Inner Harbor to Druid Hill (Locks 1–15)	6.4	38.0
R3	Druid Hill to Forest Park (Locks 16–22)	4.1	22.5
R4	Forest Park to Beltway (Locks 23–29)	5.7	18.0
R5	Beltway to Gwynns Falls Node	3.2	8.5
R6	Gwynns Falls Node to Woodlawn Terminal (Locks 33–35)	4.0	15.5
	Total	**27.2**	**105.0**

FIG. 1.1 *Longitudinal Profile — Inner Harbor to Woodlawn*

R4

3.2 Design Parameters

- Navigable width: 18 m; design depth: 3.5 m; freeboard: 1.2 m.
- Average lift per lock: 2.8–3.0 m; max single lift: 5.5 m (Lock 29, Locks 33–35).
- Lock chamber: 85 m × 12.5 m standard; 90 m at terminals.
- Minimum centerline radius: 450 m on main stem; 180 m on spurs.
- Materials: C40/50 post-tensioned concrete (locks); C50/60 (aqueduct); stainless / duplex gates; UV-HDPE floating solar; 100-year design life.

3.3 Key Structures

1. **Lock 29 (I-695).** Deep foundation (1.2 m bored piles, 22 m deep) with 5.5 m lift; pumping station (4 pumps, 18 m^3/s, 7.8 m TDH); structural lid carries AASHTO HL-93.
2. **North Avenue Aqueduct.** 1,850 m elevated trough on 40 piers, 16 m navigable width, 6.5 m clearance over North Avenue.
3. **Woodlawn Terminal.** Locks 33–35 (15 m total lift), floating solar 12–18 MWp, Resilience Park, SSA Innovation Center, intermodal hub.
4. **Gwynns Falls Node.** 120 m × 40 m turning basin, public plaza, trailhead at 1000 N Woodington Road, stormwater detention.

4. Construction, Operations, and Funding

Chapters 2–3 — Delivery and Finance

Phasing ů Critical Path ů DOT Recoupment

4.1 Phasing and Critical Path

Six-phase delivery over 12–15 years. Critical path: Ground Investigation → Deep Foundations R1–R2 → Locks 1–7 → Druid Hill Flight → Forest Park Hybrid Dam → System Integration → Commissioning → Phased Opening.

4.2 Operations

24/7 Operations Center at Woodlawn; standard 16–18 minute lock cycle; priority: emergency > commercial > passenger > recreational; SCADA with strict acyclic safety hierarchy (hardwired E-stop > local PLC > central SCADA > operator override).

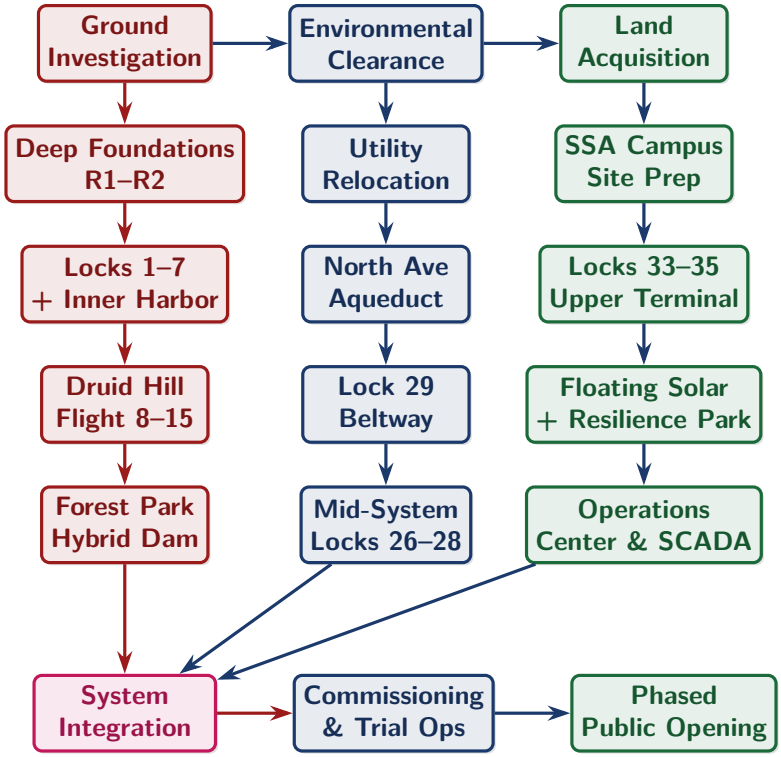

4.3 DOT Fund Recoupment (Transportation Funds Only)

Scope

Recoupment and reallocation of delayed, de-scoped, or cancelled surface- transportation funds. This is *not* a claim against the United States. All actions proceed through FHWA / MDOT administrative reprogramming, state budget amendment, and STIP / TIP amendment.

Illustrative sources: IIJA / BIL residual ($180–320 M); Federal-Aid flex ($90–150 M); State TTF / SHA savings ($120–200 M); State match released ($40–70 M). Total illustrative pool: **$430–740 M** (conceptual order-of-magnitude).
