CUSIP Order Documentation

Chapter 24

CUSIP Order Overview

CUSIP numbers are issued by CUSIP Global Services (S&P Global Market Intelligence, on behalf of the American Bankers Association). A CUSIP request is filed by the issuer or its counsel, accompanied by the offering documentation, and typically yields a 9-character CUSIP (6-character issuer + 2-character issue + 1-character check digit). An ISIN (12-character) is derived by prepending the 2-character country code.

Common Pre-requisites

- Offering memorandum, private placement memorandum, or prospectus
- Board resolution authorizing issuance
- Legal opinion (for certain structures)
- Trustee indenture or equivalent (for debt)
- Payment of the CUSIP request fee

DTC Eligibility To be DTC-eligible, a security must satisfy DTC's Operational Arrangements, including (i) a signed DTC Issuer Letter of Representations, (ii) a CUSIP assigned by CUSIP Global Services, (iii) a paying agent / transfer agent, and (iv) compliance with DTC's settlement and safekeeping requirements.
